Experience

Now – Feb 2026 — Frontend Developer, Accenture / BTechnologie, Rabat, Morocco

- Developed CMS-driven components enabling autonomous content management.
- Built and refactored reusable, high-performance React components shared across pages.
- Delivered pixel-perfect, responsive pages based on Figma mockups, with Emerch and UI/UX teams.
- Reviewed code for React developers transitioning from a legacy framework.
- Refactored project architecture to eliminate duplication across components, types, and functions.
- Collaborated with the Trilogy core team to enhance the design system and improve DX.
- Ensured full WCAG compliance across all delivered interfaces.
- Implemented data layer requirements aligned with A/B testing strategies.
- Prioritized cross-device responsiveness across all pages and components.
- Worked in an agile setup, collaborating with international teams and applying frontend best practices.

Next.js | React.js | Trilogy | WCAG | Headless CMS | Directus | PWA | Typescript | Git | CD/CD | Figma | Jira | Scrum

Feb 2026 – Feb 2025 — Frontend Developer, Renault Group / RDM, Casablanca, Morocco

- Contributed to Desyre design system : refactored code, optimized performance, enhanced DX.
- Contributed to the development of a custom internal plugin tailored to solution architects' needs.
- Built reusable and configurable components to enhance diagramming features and UX.
- Collaborated with solution architects to continuously improve functionalities.
- Investigated and resolved issues reported, contributing to a more stable plugin experience.
- Participated in the structuring and organization of the plugin's architecture and codebase.
- Actively engaged in code reviews and continuous improvement of the plugin's quality.
- Coordinated with team members through GitLab issues and agile ceremonies.
- Provided technical suggestions and asked key questions to ensure proper task understanding.
- Took part in deploying and testing updates in internal environments.
- Worked in a 100% agile environment using Scrum and SAFe methodologies.

Next.js | React.js | Material UI | NestJS | TypeScript | TDD | Git | CI/CD | MongoDB | OpenAPI | Jira | Scrum

Jan 2025 – May 2024 — Full Stack Developer, Atos, Rabat, Morocco (Freelance)

- Contributed to the digitalization of the TMPA (Tanger Med Port Authority) project.
- Built reusable, generic Front End components.
- Built Progressive Web App (PWA) solutions for mobile devices.
- Improved UX in collaboration with stakeholders.
- Fixed bugs, refactored code, and enhanced component performance.
- Contributed to the design and implementation of microservices architectures.
- Developed high-performance solutions for handling large data volumes.
- Managed production deployments and post-release monitoring.
- Worked in a 100% agile (SCRUM) environment.
- Participated in agile ceremonies and collaborated with stakeholders to refine needs.

Vite.js | React.js | Context API | Material UI | NestJS | TypeScript | Docker | Git | CI/CD | MongoDB | Jira | Scrum

Apr 2024 – Dec 2022 — Full Stack Developer, Civilaw.Tech, Kansas, USA (Remote / Freelance)

- Built dashboards for judges and Clerks, and apps for citizens.
- Created reusable UI components and improved Front End performance.
- Migrated legacy systems to modern technologies.
- Designed scalable solutions for large data volumes.
- Defined project architectures and worked with microservices.
- Fixed bugs, refactored code, and performed code reviews.
- Automated deployment and handled production releases.
- Mentored junior developers and helped with onboarding.
- Collaborated with stakeholders to refine requirements.
- Participated in agile ceremonies and wrote technical docs.

Next.js | React.js | Chakra UI | Zustand | NestJS | TypeScript | MongoDB | Redis | Docker | Git | OpenIA

May 2023
Jan 2020

Software Engineer, Phi by Kelix bio, Rabat, Morocco

- Developed and optimized business tools for pharma industry, based on real field feedback.
- Built unified interfaces with reusable components and enhanced UX/UI for field usage.
- Built Progressive Web App (PWA) solutions for mobile devices.
- Refactored code, improved performance, and fixed bugs.
- Designed and built REST/GraphQL APIs and managed MySQL databases.
- Built modular and scalable architectures using microservices.
- Used Docker for reliable deployments and implemented CI/CD pipelines.
- Monitored production environments and handled post-deployment fixes.
- Worked in an adapted Scrum setup with full agile ceremonies.
- Collaborated with stakeholders to refine product needs.
- Wrote technical documentation and ensured proper project tracking.

React.js | Vite.js | Material UI | Reactstrap | GraphQL | MobX | PWA | Redis | MySQL | MongoDB | Git | Docker

Compétences

Front-End	Next.js, React.js, i18n, Zustand, Material UI, Chakra UI, Trilogy, TailwindCSS, Shadcn
Back-End	NestJS, Express.js, Node.js, NextAuth, OAuth, Socket.io, Clerk, GraphQL, JWT
Cloud & Hébergement	AWS (Lambda, S3, Lightsail, EC2), Azure Cloud, GCP, Vercel, Railway, DigitalOcean
Mobile	PWA, React Native (Expo), Android Studio (Java)
Headless CMS	Payload CMS, Directus, Strapi, Sanity, Contentful
Langages de Programmation	TypeScript / JavaScript, Java, PHP, Python
DevOps & Outils	Apache, Docker, Git, GitLab CI/CD, Linux, Nginx, PM2
Bases de Données & ORM	Firebase, MongoDB, MySQL, PostgreSQL, Prisma, Redis, Sequelize, TypeORM
Autres Compétences	SEO, Accessibilité (WCAG), Optimisation des Performances, Revue de Code, Mentorat
Pratiques & Méthodologies	TDD, GitFlow, CI/CD, Agile, SCRUM, SAFe
Outils de Productivité	Claude, ChatGPT, Figma, Jira, VSCode, Postman, Insomnia, Tailscale, DBeaver

Eductaion

2017 - 2019 **Master's degreee in Computer Science**
Faculty of Sciences – Mohammed VI University

2015 - 2017 **Bachelor's Degree in Mathematical Sciences and Computer Science**
Faculty of Sciences – Mohammed VI University

2013 - 2015 **University Diploma in Technology in Computer Science**
Higher School of Technology – Mohammed VI University

Soft skills

- Autonomous
- Team player
- Analytical mindset

Languages

- Arabic : Fluent
- English : Professional
- French : Professional
